QUEDGELEY TOWN COUNCIL

CEMETERY RULES

As the Burial Authority, Quedgeley Town Council aims to provide a place of comfort, tranquillity and reflection for all those who wish to visit. Although we want to respect the wishes of the bereaved wherever possible, we need to ensure that the cemetery is managed for the benefit of all. In order that the cemetery can be managed to ensure a suitable environment for the benefit of all at the present time, and for the future, it is necessary for there to be regulations. As such, we would respectfully remind those persons making use of the council's cemetery that they do so on the understanding they comply with these rules.

Where a wooden cross/marker has been placed by the Funeral Director/Stonemason, this must be removed at the time of erection of headstone or if deemed in disrepair, unsightly or left on the grave, will be removed by the Council and the owner notified accordingly. As part of the Council's duty of care to cemetery visitors, it is obliged by law to carry out safety inspections on memorials and any memorial deemed unsafe will be laid down and the owner notified. It is the responsibility of the grave owner to keep and maintain the headstone in good repair and to have the stability and condition of the memorial checked regularly. Failure to do so may result in the Grave owner being held liable for any injury or death caused to a third party, caused by the poor condition of the memorial or its installation.

Memorial headstones are to be fixed 1 foot behind the grave and secured by a recognised plinth. If any memorial is found to present a potential hazard, then the Burial authority is duty bound to take action to reduce the risk to visitors. In all cases the Burial Authority will attempt to contact the Grave owner at their last known address, to inform them of their reason for taking action.

In the event of an owner failing to maintain a headstone/cremation memorial, the Burial Authority reserves the right to cause the memorials to be repaired or removed at the owner's expense.

Garden of Remembrance

There is a separate area within the Cemetery where the cremated remains are either interred or scattered. No memorial vase can be erected without the prior permission of the Burial Authority and the same rules for those of the burial area should be applied.

Cemetery Standards

As the Burial Authority, Quedgeley Town Council shall keep and maintain the cemetery in a neat but rural condition.

The grass shall be cut regularly during the growing period each year. Grass cuts shall be carried out at a frequency determined by the Council (normally from the start of April until the end of October).

The Ground Staff and our contractor makes every effort to ensure that grass cuttings do not adhere to headstones after cutting, but unfortunately situations do arise where this cannot be prevented entirely (for instance after the first spring cut, when the grass is likely to be moist). Although they will follow through with a garden blower after the cut, it is not possible for each and every blade of grass to be removed.

Hedges shall be maintained to give a neat managed appearance, but also giving maximum environmental benefit.

The Burial Authority shall maintain the appearance of the pathways and tarmac areas, keeping them free from all vegetation.

A member of our own staff will visit the cemetery on a regular basis, wherever possible and will carry out general tidying and maintenance work within the cemetery but they will not maintain individual graves unless the grave has become neglected and the Burial Authority has reason to believe that the grave is no longer being tended. There could be a fee involved with this which will be agreed by the Council at the time.

Shrubs and trees will be pruned and cut back in accordance with their seasonal requirements observing nesting times for birds.

The Burial Authority reserves the right to prune, cut down or dig up and remove any shrub, plant or flower (natural or artificial) which has been planted without authorisation or which in its opinion has become unsightly or overgrown.

All the above will depend on weather conditions allowing work to be carried out.
